

# Challenge Booklet Printing Instructions

**Pages 2-3 are for double-sided printing.**

Print on opposite sides of the same page with “Start in 3 Steps” in the same corner on the opposite side of “Protospiel Online.”

Cut along indicated lines on the front side, then cut excess edges away.

Fold each cut piece from side to side down middle to create 4 booklets.

**Page 4 is for single-sided printing.**

After printing, cut along indicated line, then cut excess edges away.

Fold each cut piece twice to create 2 booklets.

1st Fold:

Bring “Start in 3 Steps” edge to “Protospiel Online” edge.

2nd Fold:

Bring meeple edge to dice edge.

Optional: Use double-sided tape or glue on inside edges to keep the upper corners together.

This is a community-based challenge with **no contest, judging, prize, award, or deadline**. Similar to the goal at our triannual online playtesting conventions, the focus is community connection, trading feedback, and having fun!

### PROTOSPIEL ONLINE

Join the Design Challenge  
Free Online Community!

[protospiel.online/designchallenge](http://protospiel.online/designchallenge)

#### Complete the Challenge

Use the mechanism and theme plus **at least 10 bits** from your set to create a prototype. Add any other parts you'd like!

We'll host periodic livestreams showcasing games whose designers have run at least one playtest with a first prototype and declared **/challenge-completed** in their design challenge diary thread.

## Double-Sided Back - 4 Booklets per Sheet

### Start in 3 Steps

**Step 1:** Join the Protospiel Online Discord community at [protospiel.online/designchallenge](https://protospiel.online/designchallenge).

**Step 2:** Gather, purchase, or have someone pass you 20 game bits, and get a theme-mechanism combo from another community member.

**Step 3:** Find instructions for launching your design challenge diary in Discord at [protospiel.online/new-challenge-diary](https://protospiel.online/new-challenge-diary).

Follow these instructions to open a diary thread in the #design-challenge channel where you can share your process, brainstorm, and/or get feedback.

### How to Get a Theme-Mechanism Combo

#### Option 1

Ask anyone you know to pick for you.

#### Option 2

Visit #clubhouse in the Protospiel Online Discord server, send the command **/challenge-requested**, and follow the prompts.

If multiple people respond, choose the challenge that's most interesting to you.

Once you see a combo you like, send the command **/challenge-accepted** in #clubhouse, and follow the prompts to announce the theme-mechanism pairing you'll use.
